

## Powering the Future of EV Charging Infrastructure

EV Buddy is revolutionizing how EVs stay on the move. Our mission is to eliminate range anxiety and build a scalable, mobile charging ecosystem for the next generation of mobility.

### How can we help?

#### The Problem

Stranded EV drivers face towing costs averaging \$200+, hours of stress, and wasted time. Current charging infrastructure leaves gaps that leave drivers vulnerable.

#### Our Solution

EV Buddy's patent-pending V2V rapid charger lets any EV share range instantly, anywhere. No tow truck needed, just power on demand.

### How EVChargeShare Works

Simple steps to get you back on the road.

#### Connect Donor

Donor EV plugs securely into EV Buddy charger securely.

#### Power Transfer

Donor EV plugs start charging EV Buddy charging port.

#### Vehicle Ready

Energy flows at ~1 mile gain speed - mile minute rate.

#### Vehicle Ready

Recipient EV battery gains sufficient needed.

#### Back on Road

Unplug and drive away - no tow truck needed!

### V2V: The Portable Rapid Charger

Our innovative V-to-V Smart Jumper Cable technology is designed to eliminate EV charging anxiety, providing a faster, easier, and more cost-efficient solution to build the much-needed EV charging infrastructure.

#### EVChargeShare (V2V)

Our patent-pending portable V2V fast DC charging system allows for Charger-as-a-Service (CaaS). Get a mile of range every minute.

#### Installation Services

Future-ready charging hubs with dynamic power allocation, 32-inch multimedia touch screens, and smart cable management.

#### EV Buddy Network

A comprehensive app to find chargers, manage charging sessions, and handle payments seamlessly.

#### Investment Opportunities

Join the \$84B EV market. We are crowdfunding to expand our network and technology.

#### Rent a Charger

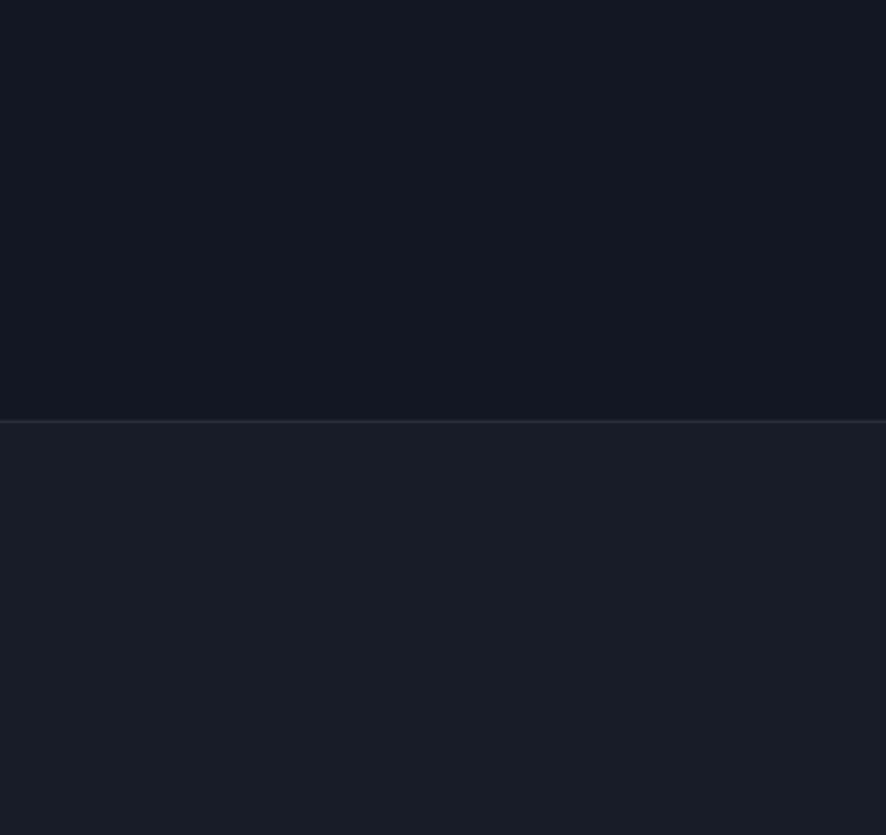

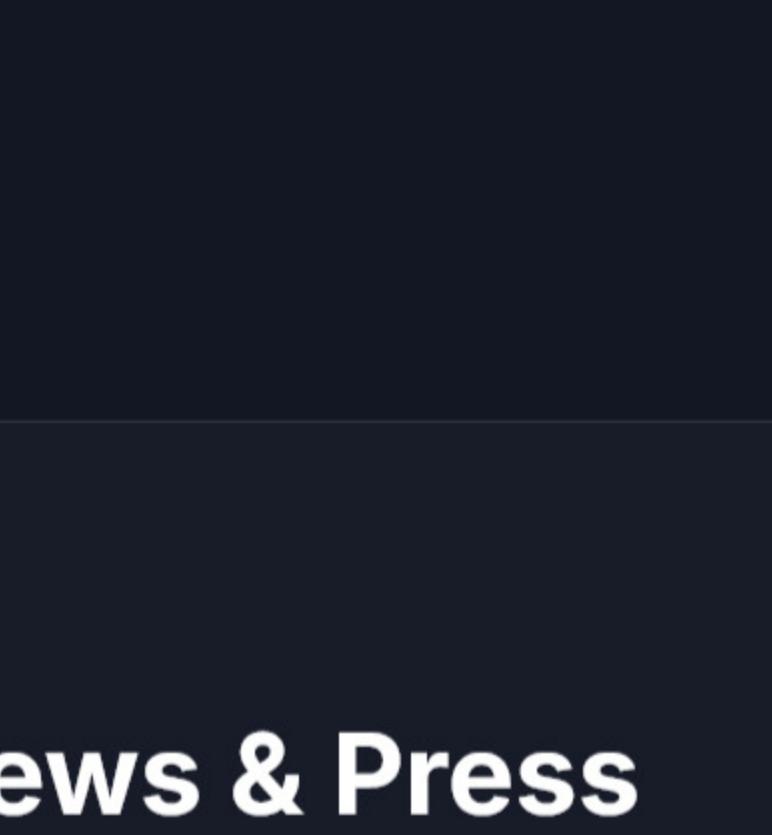

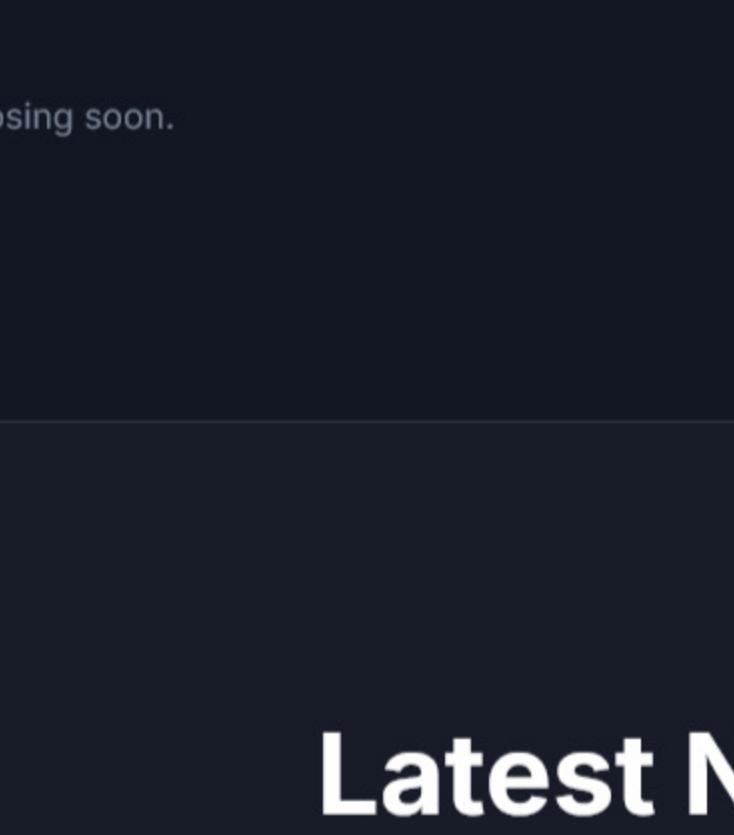

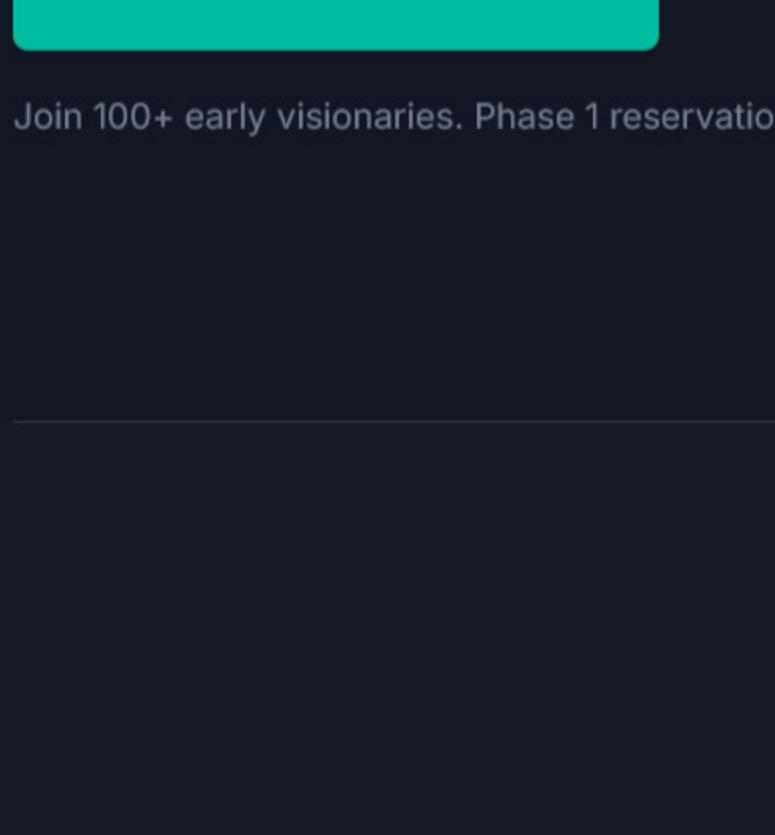

Turn your charger into income or find a charger instantly. Join our peer-to-peer charging network.

#### Latest News

Stay updated with the latest developments in the EV world and EV Buddy's expansion.

### See EV Buddy in Action

Watch real-time, V2V DC fast charging in action and see how easy it is to get back on the road in minutes.

#### Ford Mustang Mach-E

Experience fast V2V charging with the Ford Mustang Mach-E.

#### Rivian R1S

See how the Rivian R1S leverages our V2V charging technology.

#### BrightDrop Van

Commercial fleet charging made simple with BrightDrop.

#### BMW EV

Premium charging experience for BMW electric vehicles.

### EV Buddy Cluster

The EV Buddy Cluster is a dynamic, future-ready charging hub built for scale, performance, and profitability. Designed for high-demand environments, this advanced, scalable solution transforms EV charging into a profitable business opportunity.

#### Advanced Features

##### Scalable Power

Dynamic Power Allocation ensures maximum efficiency and scalability for high-demand environments.

##### 32" Multimedia Touch Screen

Intuitive user interaction combined with targeted advertising opportunities to boost revenue.

##### Smart Cable Management

Future-proof organizational systems for a clean, safe, and efficient charging experience.

##### Safety & Certification

Built to the highest international standards, ensuring reliability and full regulatory compliance.

##### Streaming Revenue

Lower break-even point with integrated multimedia monetization and advertising systems.
